

# What's the story?

Write a story about an invention that improves the health of our planet.  
Who needs help, what's the problem, how could an invention create a new ending?

*Think about the characters in your story, who are they and why might they need your invention?*

---

---

---

---

**Beginning.** *How does it start? Where is it set?*

**Middle.** *Is there a problem that needs solving?*
