.....

1. Take a picture and when you get home upload your idea at [littleinventors.org](http://littleinventors.org) to get feedback, it may even be made real.

2. Hand in your invention drawing to be put up in the gallery!

Invent your very own star-catching device. What would it look like? Would it be ready to catch falling or shooting stars, or would it jet off into space?

Use a black pen, add colours and labels
