

Dream green

Pick a room in your school or somewhere you spend a lot of time and make it more environmentally friendly. This can be any room – your bedroom, the school cafe, your classroom or your favorite restaurant.

What do you do within your chosen room that uses energy? Make a list below:

What could you do differently within your chosen room to save energy? List your ideas and thoughts of how you might do this. Think about water wastage, heating, lighting, appliances.

How can you capture any wasted energy within the room? Think about sunlight, water, movement.

Design your new greener room.

Label what you have added, adapted or taken away.

What type of energy is used or saved in your invention?
