

Activity 3.1

Character cards

Cut up the cards and pick one!

- Creating a character can help us with great invention ideas.
- You are going to create an astronaut character and the card you choose is the starting point.
- The careers in space information might also be helpful.
- Use the Little Inventors character profiler to develop your character further
- Use your card to think about what your character is like- where do they come from, can you think more about the things they might like/dislike? Write it all down on the Little Inventors character profiler.
