

# Dream train

There are restaurant trains and sleeper trains. But what else could you do on a train?

**Invent your dream train carriage!**

Think hard about what activities you would like to do on your dream train. What would need to be inside the carriage to be able to do those things? Does there need to be tables or chairs or could the carriage look totally different?

Draw your dream train carriage here! First draw the outline of your carriage and then draw what will be inside it. Think about who's going to use it!
